VA Serves Women Veterans

In gratitude for your honorable service to our nation, VA provides benefits to help you take care of your family; buy, retain, or modify a home; earn a degree; start a career; stay healthy; and do so much more in life after the military.

Here are a few ways VA serves women Veterans:

- **We tailor our services to your health care needs.** VA’s gender-specific health services include comprehensive breast and gynecological care, maternity care coverage, hormone replacement therapy, and infertility evaluation and limited treatments.
- **We provide comprehensive care.** VA’s high-quality care also includes health promotion and disease prevention, primary care, acute medical and surgical care, caregiver support, emergency care, mental health care, post-traumatic stress disorder treatment, substance use treatment, rehabilitation, and long-term care.
- **We’re here for you.** VA has expertise treating combat-related and other types of trauma, and we know that recovery is possible. If you’ve experienced military sexual trauma, you can obtain free, confidential treatment—including counseling and outpatient, inpatient, and residential care—for resulting mental and physical health conditions. VA also has resources for all Veterans who are homeless, including women and women with children, as well as support to help you adjust to life after service.
